

STRUCTURED FINANCE

Structured Finance by Louis Group Capital has been created to provide a flexible mechanism for addressing the unique property needs of clients. It is an alternative to conventional bank mortgage finance in that it offers the investor additional choice when making property acquisitions.

Entrepreneurial ideas such as variable loan periods, escalating payments, interest rates independent of the REPO rate, increased loan amounts of up to 85% of the market value of a property and cashflow benefits all empower the investor to allocate their capital resources appropriately and allows them to take advantage of investment opportunities that could otherwise be lost due to a lack of conventional funding.

Currently, Louis Group Capital, through its Structured Finance, has successfully concluded loan contracts in excess of R100 million.
